

Mars HD by Zoomax \$2,290 Lightweight Portable Video Magnifier

The Mars HD is perfect for students and professionals. This versatile video magnifier offers 3 viewing modes, making it easy to view objects that are close-up, to see materials on your desk and even watch presentations or read signs across the room.

And the Mars HD comes fully loaded. There is no need to choose between SD and HD models, or pay more for compatibility with a PC or Mac. Mars HD does it all for a lower price than the base models from other brands.

Mars HD provides the ultimate in portability too. The Mars HD weighs less than 2lbs, folds down easily and comes with an attractive and functional carry case. And the Mars HD on-board LI battery provides up to 4 hours of continuous use without ever having to worry about connecting to a power source.

Features:

- 2x-80x magnification (based on 14" screen)
- High-Definition (HD) auto focus camera
- 17 high-contrast color modes
- Light-weight, foldable, and portable design
- 3 Viewing Modes: close, distance and self-viewing
- Fully loaded: All Mars are HD and PC/Mac compatible
- Ultimate Portability: battery-operated & includes carry case
- Image-capture and split-screen functions with PC/Mac
- Great image quality at all magnification levels
