## Aurora HD by Zoomax \$2,450

### 24" HD Desktop Video Magnifier

The Aurora HD 24" widescreen desktop magnifier offers the largest viewing area of any video magnifier, providing plenty of space for reading, writing or doing hobbies! With the combination of an LED monitor and custom HD auto-focus camera, you can be assured to get the best image quality available at all magnification levels. Designed with the end-user in mind, the Aurora HD is fully customizable. Adjust the viewing monitor vertically or horizontally until it is in a comfortable position and then set your level of magnification, high-contrast color settings and brightness to ensure you have perfect picture quality every time. Use the horizontal or vertical reading guides to help you keep your focus as you read and when you have finished, save those settings for future use.

### Specifications:

- 2x-70x continuous magnification
- High-definition auto focus camera
- 17 high-contrast color modes
- Crisp image quality at all magnification levels
- Large intuitive buttons for easy navigation
- Adjustable viewing screen for comfortable reading
- Lock X and Y axis on reading tray independently
- Change focal points – read materials on tray or view objects in your hands
